Project:

Barholm Woodland Expansion, Dumfries & Galloway

Title:

Consultation Map: Design Amendments (South West)

Legend

- Property boundary
- Proposed route of road

Recreational routes

- Core Path
- Informal Walking Routes

Fencing proposals

- Deer fence (existing or new)
- Self-closing gate for recreational access

Draft Woodland Species Composition

- Sitka spruce
- Sitka spruce with Aspen
- Norway spruce
- Douglas fir with Norway spruce
- Mixed woodland (Douglas fir, Norway spruce, Coast redwood, Silver birch, Wild cherry)
- Norway spruce with Silver fir
- Scots pine, Norway spruce and Mixed broadleaves (Birch and Oak)
- Mixed broadleaves (Oak, Birch, Wild cherry, and Aspen)
- Native broadleaves based on National Vegetation Classification (NVC) W11
- Native broadleaves based on NVC W4/W7
- Native shrubs
- Low-density native broadleaves
- Open ground
- Existing woodland

Proposed woodland has been redesigned to the south of Larg Hill and Knockeans Hill to provide greater buffering from Sitka spruce and neighbouring open habitats to the north. A greater degree of diversity has been proposed, including Scots pine, Norway spruce, Oak, and Birch.

Path rerouted to avoid cliff and allow access through existing gates in internal fields.

Route of deer fence has been moved to run along the western side of the Kirkbride Burn.

Route of deer fence amended; broadleaved trees below deer fence to be protected with tree shelters.

No planting is or will be proposed on the fields to the west of the A75 and below the road at Carsluith.
